### **FLCA Awards Program - Register of Merit (ROM) and Register of Merit Excellent (ROMX)**

- The ROM and ROMX may be earned by AKC registered Finnish Lapphund Dams and Sires whose progeny achieve the required number of AKC Championships in Conformation and/or Performance. These awards shall be retroactive back to June 30, 2011, the date the breed obtained AKC recognition.
- FLCA Members in good standing with the AKC and the FLCA, who are registered owners of the Dam or Sire, may apply for the ROM and ROMX. Because this award is to honor the Dam or Sire, the Applicant need not be the breeder or owner of the qualifying progeny.
- The AKC titles of the progeny must contain the word Champion to be counted toward the totals for ROM and ROMX. <https://www.akc.org/sports/titles-and-abbreviations/akc-titles-sorted-alphabetically/>
- Application and a photo of the Dam or Sire shall be submitted to the FLCA Awards and Title Committee. It is the responsibility of the Applicant to ensure the accuracy of the information submitted on the application. All and only AKC titles for the Dam or Sire and progeny should be included on the application. The committee may return applications for corrections via email.
- After committee review, a certificate of award will be mailed to the Applicant and the Finnish Lapphund will be added to the FLCA website ROM page.
- If a Dam or Sire produces new Champions or if the progeny earn more titles after the application has been approved and posted on the website, a new application can be submitted with a \$10 fee and the website details will be edited. This fee does not apply to ROM awarded Dams or Sires applying for the ROMX.

#### **ROM REQUIREMENTS**

- Dams: 5 progeny who have earned an AKC Championship-Conformation and/or Performance
- Sires: 5 progeny who have earned an AKC Championship-Conformation and/or Performance

#### **ROMX REQUIREMENTS**

- Dams: 10 progeny who have earned an AKC Championship-Conformation and/or Performance
- Sires: 10 progeny who have earned an AKC Championship-Conformation and/or Performance
